Innovation

Institution has created an eco-system for innovations including Incubation Centre and other initiatives for creation and transfer of knowledge. The sole objective of the Incubation Centre is to facilitate students to convert their Ideas into **dental related Innovations**. Students are provided facilities to build prototypes useful for promotion of dentistry. Financial Assistance is provided for major and minor Research Projects.

I.T.S Engineering College, Greater Noida providing facilities of Incubation Centre under MoU for students and faculty.

The facilities provided by the incubation centre include

- ICT enabled area
- Provision of space for development, discussion and planning of projects
- Technical engineering support
- Use of major equipment like 3D printers
- Promoting entrepreneurship by exposure to agencies providing grants for research.
