7.3.1 Performance of the Institution in One Area Distinctive to Its Priority and Thrust

Institutional Distinctiveness Year: 2022-23

**OPAC (Online Public Access Catalogue) Service**

The college library is fully automated with 'Alice for Windows' software. It is used for various housekeeping operations such as Inquiry, Circulation, Cataloguing, Management Reports, **OPAC** which are fully automated.

Online Public Access Catalogue (OPAC) is search engine for finding reading material available in the library. It is used easy to locate library materials and required information resource is available in the particular library or not. OPAC provides easy search to books by title, author, barcode, accession number, subject and publisher.

The search results are displayed in an intuitive and user-friendly format, facilitating the quick and easy location of materials.

Important features of the OPAC library:

- It makes the book search simple and fast by offering an online search feature via keywords
- Access to book search history for better search results
- Quick & accurate search results with a few clicks
- User can know due date of issued books
- User can search whether or not the required books are available in the library
