1. Take online class in google meet rather on zoom bcz there is lot of network issue or disconnect prblm on zoom class
2. course content and everything is good. But zoom is very complicated as compared to Google meet, sometimes we're not able to hear teacher or they can't hear us. Also, if you by chance get disconnected in b/w the class it takes time to reconnect due to which we're not able to cover the entire topic that is being taught in the class.

18. There should be videos in lectures of prostho and cons as much as possible as we're not able to do the practical work at home so it's difficult to relate theory in ppts with the practical work.
19. Everything is fine.
20. All are good.
21. No

49. Entry time in class room should increase. Due to network issue can't join in time and after 10mins meetings get locked by the host.
50. We need important question from every chapter, as soon as we complete revision of that particular chapter.
51. The time given for entering the class should be increased because sometimes due to network issues we miss the class.
